The Greatest Trek in the World

North Bengal is on the eastern fringe of India and offers wonderful locales for adventure tours to the Eastern Himalayas. An overnight journey from the state capital of KOLKATA or an exhilarating flight of 50 mins, we arrive at the very base of the Great Eastern Himalayas from where one can see Mt Kangchendzonda (8586 Mtrs), the third highest peak of the world. It is also the only 'eight thousander' in the world which can be seen from the plains. With its diversified flora and fauna along with ecstatic views and wonderfully hospitable people, North Bengal stands out as a very unique gateway to the Greater Himalayas.

The suggested tour will take you to the 'queen of hills' - Darjeeling and then on the trek route to Sandakphu where you will actually cross over the border into Nepal. Mind-blowing views of the Himalayan mountain range await you, including Kanchenzongpa and Everest
